GEORGE WASHINGTON UNIVERSITY

Office of Public Relations/Washington, D.C. 20052/(202) 676-6460

MEMORANDUM TO: NEWS DESKS

FROM: OFFICE OF PUBLIC RELATIONS
GEORGE WASHINGTON UNIVERSITY

RE: SPRING COMMENCEMENTS, SUNDAY, MAY 3
There are six. Complete SCHEDULE attached

SPEAKERS: CAPTAIN GRACE MURRAY HOPPER, USNR, computer pioneer; RAFAEL M. SALAS, executive director of the U.N. Fund for Population activities; GW University Professor MARCUS CUNLIFFE, American studies scholar; H. GUYFORD STEVER, chairman of the National Research Council's Assembly of Engineering; the Honorable ELLIOT L. RICHARDSON, chairman of the United Nations Association of the U.S.; and ROBERT IRA BICKFORD, president of Prince Georges Community College.

STUDENT SPEAKERS (three): JUSCEL ANTONIO ENDOSO at Columbian College of Arts and Sciences (who will receive a Bachelor of Arts with a major in economics); KATHERINE CHRISTENSEN and DANNY A. WEISS at School of Public and International Affairs. Both will receive Bachelor of Arts degrees, Christensen with a major in international affairs and Weiss in public affairs.

HONORARY DEGREES will be conferred on Captain Grace Murray Hopper, Rafael M. Salas, H. Guyford Stever, and Elliot L. Richardson. All four will receive the honorary degree of Doctor of Public Service.

PICTURES can be made 30 minutes before each ceremony. SEE ATTACHED SCHEDULE.

FRAN MARSH, JANE LINGO, DIANE RUSH AND ROBERT BOVÉ of the Public Relations Office will be present to assist with pictures. Photos of graduates can be arranged.

PARKING will be available on GW Lot A. Enter from F Street between 20th and 21st Streets, N.W. Present this memo to attendant or leave on dashboard.

A general admission PRESS PASS is attached.

WEEKEND TELEPHONES: 333-6148, 234-3453, 338-3497

GEORGE WASHINGTON UNIVERSITY COMMENCEMENTS, SUNDAY, MAY 3, 1981

SCHOOL OF GOVERNMENT AND BUSINESS ADMINISTRATION

Speaker: Captain Grace Murray Hopper, USNR, special adviser to Admiral Paul E. Sutherland Jr., commander of the Naval Data Automation Command
Topic: "Future Possibilities" NO TEXT

Honorary degree: Captain Grace Murray Hopper, USNR, Doctor of Public Service

Charles E. Smith Center, 600-22nd Street, N.W., 12 Noon
PICTURES in the Smith Center Director's Office, 11:30 a.m.

GRADUATE SCHOOL OF ARTS AND SCIENCES

Speaker: Dr. Rafael M. Salas, executive director of the U.N. Fund for Population Activities
Topic: "Technology for Humanity" TEXT AVAILABLE SUNDAY

Honorary degree: Dr. Rafael M. Salas, Doctor of Public Service

Marvin Center Theater, 800-21st Street, N.W., 1 p.m.
PICTURES, Leggette Room, left of theater entrance, 12:30 p.m.

COLUMBIAN COLLEGE OF ARTS AND SCIENCES

Speaker: GW University Professor Marcus Cunliffe, American Studies scholar NO TEXT

Student Speaker: Juscel Antonio Endoso, who will receive a B.A, economics major

Charles E. Smith Center, 666-22nd Street, N.W., 3 p.m.
PICTURES in the Smith Center Director's Office, 2:30 p.m.

SCHOOL OF ENGINEERING AND APPLIED SCIENCE

Speaker: Dr. H. Guyford Stever, chairman of the National Research Council's Assembly of Engineering NO TEXT

Honorary degree: Dr. H. Guyford Stever, Doctor of Public Service

Lisner Auditorium, 21st and H Streets, N.W., 4 p.m.
PICTURES, Dimock Gallery, off the Lisner lower lounge, 3:30 p.m.

SCHOOL OF PUBLIC AND INTERNATIONAL AFFAIRS

Speaker: The Honorable Elliot L. Richardson, chairman of the United Nations Association of the U.S.
Topic: "Is Nationalism in the National Interest?" NO TEXT

Student speakers: Katherine Christensen and Danny A. Weiss. Both will receive B.A., she in international affairs, he in public affairs

Honorary degree: The Honorable Elliot L. Richardson, Doctor of Public Service

Marvin Center Theater, 800-21st Street, N.W., 5:30 p.m.
PICTURES, Leggette Room, left of theater entrance, 5 p.m.

SCHOOL OF EDUCATION AND HUMAN DEVELOPMENT

Speaker: Dr. Robert Ira Bickford, president of Prince Georges Community College

Lisner Auditorium, 21st and H Streets, N.W., 7 p.m. NO TEXT
PICTURES, Dimock Gallery, off the Lisner Lower lounge, 6:30 p.m.

Sent to A.P. with the film mentioned in the note on May 3, 1981, about 9 p.m.
by messenger,

May 3, 1981

Dear Associated Press:

On the attached roll of film, you will see left to right .
George Washington University President Lloyd H. Elliott, GW Dean of the
School of Public and International Affairs Burton M. Sapin, and the
Honorable Elliot L. Richardson, Richardson received the honorary degree
of Doctor of Public Service from George Washington today in 5:30 p.m.
ceremonies in the GW Marvin Theater. In subsequent pictures on the roll,
you will see President Elliott on the left and Richardson on the right.
Putting the hood over Richardson's head is GW Professor of History Peter P. Hill,
marshal of the School of Public and International Affairs. President Elliott
wears a soft academic hat (mortar board) while the others wear the wider
mortar boards. The 5:30 ceremonies were the annual commencement of the GW School of
Public and International Affairs. Richardson delivered the address to the graduates.
The honorary degree citation is attached.

Sincerely,

Jane Lingo
Assistant Director of Public Relations
George Washington University

Telephones: 234-3453 (home)
676-6460 (office)

NOTE: We would appreciate having the film back if possible so we can have some
of the pictures for use in GW publications.

MEMORANDUM TO EDITORS

FROM OFFICE OF PUBLIC RELATIONS, GEORGE WASHINGTON UNIVERSITY.

Attached are excerpts from the commencement addresses of the Honorable Elliot L. Richardson, Captain Grace Murray Hopper and Dr. Robert Ira Bickford, all commencement speakers at GW today, May 3, 1981.

Richardson addressed graduates of the School of Public and International Affairs and recieved the honorary degree of Doctor of Public Service. Captain Hopper addressed graduates of the School of Government and Business Administration and recieved the honorary degree of Doctor of Public Service. Dr. Bickford spoke to degree recipients at the commencement of the School of Education and Human Development.

Some 2,500 graduates received degrees in six separate ceremonies on the GW campus today.

Fran Marsh
Director of Public Relations
George Washington University

Telephones: 333-6148 (home)
676-6460 (office)

The attached was sent to A.P., U.P.I.POST, STAR and NEW YORK TIMES, D.C. bureau about 9 p.m. by messenger on Sunday, May 3, 1981 after the six commencements of the day.

Exerpts of commencement address,
to School of Public and International Affairs
by Elliot Richardson, Chairman of the United Nations Association of the U.S.

May 3, 1981
George Washington University

My subtopic today is dinosaurs. The great thing about dinosaurs is that they achieved such extraordinary capabilities. The big ones with long necks reached higher into the trees than any other creature. The others had enormous jaws and teeth capable of crunching in one mouthful whole sheep or whatever the equivalent was at that time. There were flying creatures that had enormous wing spans and could fly at very high velocities. The trouble with all these creatures was they were too highly evolved. Too good at what they were good at to be able to adapt to anything else in the face of change. Human beings are a little like that.

The pattern of evolution of societies has been similar to that of populations of creatures. There is an interlocking relationship between change, challenge, adaptation and survival or extinction and disappearance.

The real force of nationalism only began to get underway a little over 100 years ago and its momentum was only picking up steam in the latter part of the 19th century...The real take off of nationalism came after World War II. The United Nations was formed in 1945 of some 52 countries--that's all there were then. There are now some 160 countries around the world..most came into existence since the late 1950s.

(more)

It is a real question whether at the peak of rampant nationalism around the world so soon after the emergence of such a large number of independent sovereign states whether they are not challenged by changes that will before long threaten them with extinction. The sovereign state is peculiarly ill adapted in many ways for survival in the world of the foreseeable future...The rate at which the world has been becoming inter-dependent...has created strains on the capacities of these states to respond adequately to the needs of their people.

It seems inescapable that there are no really serious problems facing any country in the foreseeable future which that country by itself can cope with effectively, not even the United States, not even a group of countries banded together for that purpose..not even the western industrial countries, although they could get along better by themselves than any other group. The really serious problems--food supply; the availability of energy at prices that will not submerge the rest of the economy; economic development, particularly along the lines that will help to reduce the growing disparity of wealth; between the rich and the poor; population growth...and the enormous increase in size of urban areas, particularly in the developing countries...creating difficult economic and social problems that could become explosive. With all this is the progressive deterioration of the environment, deforestation, nuclear proliferation...All these problems threaten the survival the viability of the nation state.

(more)

Richardson/3

Multilateral approaches to coping with these serious problems are needed....rested on a foundation of law...This kind of task is one of constitution making...the states which came together to fight the American Revolution were in a sense in the position of the sovereign states today. The conveners in 1777 invented solutions which enabled them to preserve their separate identity while creating the powers necessary to conduct a government in the interests of all of them. They invented the idea of delegating power upward and then limiting these powers. They invented the device of equal representation of all states...they invented the device of a Bill of Rights which would further limit the powers of an elected government. I'm not suggesting that the world is ready for the delegation of the sovereign nation states to some supranational bodies of the scope delegated by the former colonies to the new federal government but I am suggesting that the demands of change, the inventiveness that was displayed in Philadelphia is the kind of approach that is going to be necessary.

IN 1972, WHEN I EARNED MY DOCTORATE, THE BLOOM WAS OFF THE ROSE AND A NEW HANDWRITING HAD BEGUN TO APPEAR ON THE IVY-COVERED WALLS. STUDENT PROTESTS WERE THE TEMPER OF THE TIMES. ZERO POPULATION GROWTH WAS BECOMING A REALITY. ALREADY WE COULD SEE SOME EVIDENCE OF A SLOW-DOWN IN THE FIELD OF EDUCATION. THE PROPHETS OF DOOM WERE WARNING US THAT THE GOOD TIMES WERE ABOUT TO END. AND, FOR MANY OF US, THEY DID.

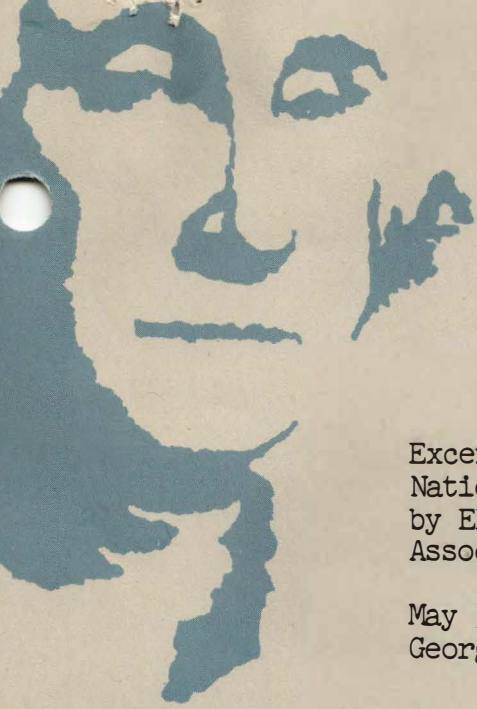

THE POPULAR PRESS, THE MEDIA AND STATISTICIANS ARE TELLING US THAT THERE ARE TOO MANY TEACHERS CHASING TOO FEW JOBS. TEACHING AS A PROFESSION IS PERILOUSLY CLOSE TO THE BOTTOM OF THE LIST OF JOBS IN DEMAND. PH.D.'S ARE DRIVING TAXI CABS, AND ELEMENTARY SCHOOL TEACHERS ARE TENDING BAR OR WAITING ON TABLES. HUNDREDS OF APPLICATIONS ARE FILED FOR EACH JOB.....

EVEN WORSE, THE IMAGE OF THE TEACHING PROFESSION HAS SUFFERED IN THE PUBLIC EYE. JOHNNY STILL CAN'T READ OR WRITE. SAT SCORES HAVE PLUMMETED, AND SOME UNIVERSITY GRADUATES ARE FUNCTIONAL ILLITERATES. A 1981 GALLUP POLL INDICATED THAT NEARLY HALF THE AMERICAN PUBLIC BELIEVES SCHOOLS ARE DOING A POOR OR ONLY FAIR JOB OF EDUCATING OUR YOUTH, -- A VERDICT THAT, IN THE PAST, WOULD HAVE BEEN UNTHINKABLE. JUST SEVEN YEARS AGO, IN A SIMILAR POLL, TWO-THIRDS OF THE PUBLIC RATED SCHOOLS AS EXCELLENT OR GOOD. AND SO, WHAT IS BEING DONE ABOUT IT? FUNDS ARE CUT, TEACHERS ARE LAID OFF, "FRIVOLOUS" PROGRAMS LIKE ART, MUSIC, AND SPORTS ARE ABOLISHED, AND SCHOOL ADMINISTRATORS ARE FIRED. AND THE BAD NEWS DOESN'T STOP HERE.

OUR HIGH SCHOOLS NO LONGER RESEMBLE A SCENE FROM "HAPPY DAYS". SOME HIGH SCHOOLS HAVE TAKEN ON THE APPEARANCE OF ARMED CAMPS. TEACHERS ARE WORKING IN AN INCREASINGLY DANGEROUS PROFESSION WHERE PHYSICAL THREATS ARE NOT UNCOMMON. DISCIPLINING DRUG AND ALCOHOL ABUSERS HAVE TAKEN THE PLACE OF HANDLING FOOD FIGHTERS AND DRESS CODE VIOLATORS.

ARE THERE REALLY TOO MANY TEACHERS CHASING TOO FEW JOBS? NOT IF YOU LOOK OUTSIDE THE TRADITIONAL CLASSROOM WALLS. CONTINUING AND ADULT EDUCATION MAY BE THE FASTEST GROWING ENTERPRISE IN THE COUNTRY. FORTY MILLION PEOPLE REGARD THEMSELVES IN NEED OF RETRAINING AS THEY UNDERGO SOME FORM OF CAREER TRANSITION. SIXTY-FIVE MILLION AMERICANS LACK BASIC COMPETENCY SKILLS. TWELVE MILLION PROFESSIONALS REQUIRED REGULAR IN-SERVICE EDUCATION. MANY BUSINESSES AND INDUSTRIES ARE TAKING ON THE RESPONSIBILITY OF EDUCATING THEIR EMPLOYEES, IN-HOUSE.

HAS THE PRESTIGE OF THE TEACHING PROFESSION DETERIORATED BEYOND REPAIR? THE ANSWER IS A CLEAR NO IF YOU UNDERSTAND THE TRENDS AFFECTING TEACHER SELECTION TODAY. DECLINING TEACHER PRESTIGE MAY HAVE RESULTED, IN PART, FROM OUR WILLINGNESS TO HIRE ANY WARM BODY DURING THE TEACHER SHORTAGE OF THE 50'S AND 60'S. THOSE WARM BODIES NOW HAVE TENURE AND HAUNT EVERY ADMINISTRATOR NO MATTER WHAT LEVEL OF EDUCATION HE OR SHE MAY BE IN.

MEMO TO EDUCATION EDITORS

RE: TRAINING HUMANISTS TO USE COMPUTERS: MINI-INSTITUTE AT GW

Twenty-five Washington-area university history professors and a few advanced graduate students will participate in a one-week seminar designed to train them in computer use the week of May 18-22 at George Washington University. Sponsored by Chicago's Newberry Library Family and Community Center and funded by a grant from the National Endowment for the Humanities, the seminar provides an introduction to quantitative social and political history and historical demography for humanists unfamiliar with computer techniques.

In addition, the institute will:

- emphasize recent trends in American and European history--especially in voting behavior, the family, urbanization, modernization and social structure;
- cover step-by-step techniques like sampling, coding and analysis of census and election returns;
- train the professors in computer use in their historical research; and
- train participants to work their own computer runs and interpret the results.

For information call Linda Lear, assistant director, GW Division of Experimental Programs, (202) 676-7565.

ANNANDALE RESIDENT GIVES SPEECH AT GW COMMENCEMENT

WASHINGTON, D.C. -- Annandale resident J. Antonio Endoso gave the 1981 senior class student speech at the recent commencement of George Washington University's Columbian College of Arts and Sciences. Endoso, who received his Bachelor of Arts degree with a major in economics, chose the "importance of passion in leading a vital life" as the theme for his address. (Text and photo enclosed.)

Endoso is one of 2,500 GW spring graduates. His address preceded that of British-born GW University Professor Marcus Cunliffe, distinguished scholar of American studies. Professor Cunliffe several times referred to Endoso's speech during his own address.

For information call Endoso at 941-3095.

MEMO TO CALENDAR EDITORS

RE: SPECTRUM MANAGEMENT SEMINAR AT GW

The eighth annual seminar on "The Government's Role in Radio Spectrum Management" will be held at George Washington University June 1-4 in GW's Corcoran Hall, room 101, 725 21st St., NW. Organized and conducted by GW's Center for Telecommunications Studies, this seminar is held in cooperation with the National Telecommunications and Information Administration (NTIA) and the Federal Communications Commission.

Panel discussions include the following topics:

- changing needs for spectrum management;
- alternative techniques;
- present government structures;
- NTIA/IRAC allocation process and data bases;
- FCC allocation process;
- EMC engineering--monitoring and measuring;
- spread spectrum techniques; and
- the future of spectrum resources.

Speakers include NTIA Associate Administrators Donald D. Parlow and Donald L. Janksy; FCC staff members Stephen Lukasik, chief scientist, and Robert L. Cutts, chief of the Spectrum Management Division; and Shih-Chun Chang, GW assistant professor of engineering and applied science.

page 2 of two

An on-site tour and lecture will be conducted at the FCC. For information call (202) 676-7062 or write Center for Telecommunications Studies, George Washington University, 2000 L St., NW, Suite 307, Washington, D.C. 20052.

MEMO TO TELEVISION CRITICS AND TALK SHOWS

RE: GW VISITING PROFESSOR DAVID THORBURN: BEYOND

THE WASTELAND—COMMERCIAL TELEVISION AS NARRATIVE ART

What do the changes in television drama over the last 30 years tell us about American society during this period? That is one of the questions posed by David Thorburn, media critic, author, and associate professor of literature at M.I.T. in his course at George Washington University's Radio and Television Summer Institute, "Issues in Broadcasting: Beyond the Wasteland--Commercial Television as Narrative Art."

Thorburn, whose most recent book is John Updike: A Collection of Critical Essays (1979), has lectured widely to broadcasters, teachers' groups and at universities on literary topics and on media in popular culture. His essays have appeared in the Yale Review, Partisan Review, The New York Times, and Commentary. He is now completing a new book, Story Machine: Prime Time Television in the Network Era. Before joining the faculty at M.I.T., Thorburn taught at Yale University, where he introduced his course on TV as a narrative medium.

For information call Joan E. Thiel, associate professor of speech and director of GW's radio and television program, at (202) 676-6699.

LAHASKA RESIDENT INDUCTED INTO THREE GW HONOR SOCIETIES

WASHINGTON, D.C. — David Saperstein, son of George and Marion Saperstein of Deer Run Rd., Lahaska, was recently inducted into three engineering honor societies and elected an officer of two of them.

Saperstein is president of Alpha Epsilon Delta, a pre-medical honor society; secretary of Tau Beta Phi, an engineering honor society; and was inducted into Eta Kappa Nu, an electrical engineering honor society. He is also a member of Phi Eta Sigma, a freshman honor society. Entering his senior year in GW's School of Engineering and Applied Science, Saperstein has a 3.75 grade point average out of 4.0. He attended Central Bucks East High School in Buckingham, Pa.

MARYLANDERS HONORED AT GW COMMENCEMENT

WASHINGTON, D.C. -- Three Maryland residents were recently honored at commencement ceremonies at the George Washington University School of Engineering and Applied Science.

Patricia E. Balduman of 2709 Edfeldt Dr., District Heights, placed second in the senior design award competition in civil engineering; Dana C. Lynn of 305 Riggs Ave., Severna Park, placed second in the same competition for mechanical engineering; and Dennis L. Egan of 217 Glade Blvd., Walkersville, placed third in mechanical engineering.

The competition encourages students to conceive, design and construct for testing an imaginative project in hardware or software. A review panel of lab instructors, fellow students and leading area consultants considers the projects based on originality, calculation accuracy, hardware draftsmanship, depth of theory and presentation. Balduman's project was entitled "Design of a Marina," Lynn's was "Dullcut Chainsaw Accessory" and Egan's was "Creative Technological Aid for the Handicapped."

FALLS CHURCH RESIDENTS HONORED AT GW COMMENCEMENT

WASHINGTON, D.C. — Two Falls Church residents were recently honored at commencement ceremonies at the George Washington University School of Engineering and Applied Science.

Krishna S. Nathan of 6200 Wilson Blvd. placed third in the senior design award competition in computer science, and Richard E. Pazar of 428 Hampton Court placed first in the same competition for mechanical engineering.

The competition encourages students to conceive, design and construct for testing an imaginative project in hardware or software. A review panel of lab instructors, fellow students and leading area consultants considers the projects based on originality, calculation accuracy, hardware draftsmanship, depth of theory and presentation. Nathan's project was entitled "Automatic Telephone Dialer Based on the RCA 1802 Microprocessor," and Pazar's was "Coupon Inserter."

FOR IMMEDIATE RELEASE

FOUR NEW TRUSTEES TO JOIN GW BOARD

WASHINGTON, D.C. -- Four new members will join George Washington University's Board of Trustees July 1.

-- Margaret Truman Daniel, author and interviewer, is a GW alumna (B.A. in history 1946). She has written seven books, among them Harry S. Truman, the best-selling biography of her late father, mystery novels Murder in the White House and Murder on Capitol Hill, and recently published Letters from Father. A concert singer, she made her radio debut as soloist with the Detroit Symphony in 1947. She was co-host on the NBC program "Weekday" and conducted her own interview program, "Authors in the News," for seven years. Mrs. Daniel serves on the boards of Riggs National Bank of Washington, D.C., the Pension Fund of the Protestant Episcopal Church of North America and Seabury Press.

-- Senator Daniel K. Inouye, senior senator from Hawaii, was elected to the U.S. Senate in 1962. He is secretary of the Senate Democratic Conference, a member of the Senate Democratic Policy Committee, and a member of Senate Committees on Appropriations and Commerce, Science and Transportation, and the Select Committees on Intelligence and Indian Affairs. He served in the U.S. Army during World War II, advancing from private to captain, and was decorated with the Bronze Star and Purple Heart with cluster. Senator Inouye is a 1952 graduate of GW's National Law Center.

--MORE--

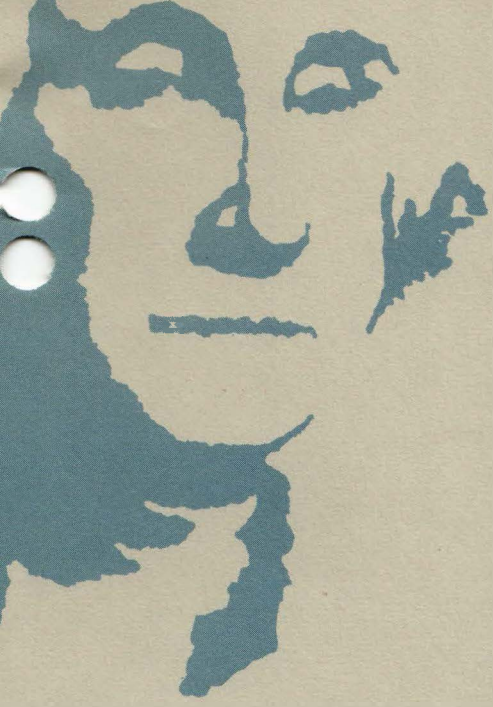

PAGE TWO OF TWO

-- W. Jarvis Moody is chairman and president of American Security Corporation and American Security Bank, N.A. Formerly a loan and new business officer at Morgan Guaranty Trust Company in New York, he joined American Security Bank in 1964 as vice president. He has served three terms on the executive council of the American Bankers Association and is a past president of the D.C. Bankers Association. From 1974 to 1976 he was chairman of the Regional Advisory Board of the Comptroller of the Currency. He is a corporate director of Acacia Mutual Life Insurance Company, Peoples Drug Stores and District Realty Title Insurance Company.

-- J. McDonald Williams is managing partner of Trammel Crow Company, a real estate development and investment firm in Dallas. A partner in the Dallas law firm of Stalcup, Lipshy and Williams from 1968 to 1973, he has been associated with Trammel Crow since 1973. He received the J.D. degree from GW in 1966 with honors, graduating second in his class. He serves on the board of directors of Park Cities Bank and Trust Company, Dallas, and is a member of the Dallas Assembly, an association of community leaders in the Dallas metropolitan area.

At its May 21 meeting, the board of trustees also approved a resolution increasing the number of trustees nominated by the General Alumni Association from two to three for a three-year experimental period. The General Alumni Association will seek nominees from among those alumni submitted by the GW Student Association.

In other action, the board passed a resolution limiting to 25 percent non-tenure-accruing appointments in the regular active-status faculty in the colleges and schools of the university. No department may have fewer than 50 percent of its regular active-status faculty appointments tenured or tenure-accruing. The policy exempts the National Law Center and the Medical Center.

GW DIMOCK GALLERY--"CONFIGURATIONS," PHOTOS BY AREA ARTIST

WHO: INVITED AREA ARTISTS

WHAT: PHOTOGRAPHS SHOWING ABSTRACT, PATTERNED
OR REPETITIVE IMAGES

WHEN: THURSDAY, JUNE 18, THROUGH FRIDAY, JULY 31
10 A.M. TO 5 P.M. MONDAY THROUGH FRIDAY

WHERE: DIMOCK GALLERY, THE GEORGE WASHINGTON UNIVERSITY
OFF THE LOWER LOUNGE OF LISNER AUDITORIUM,
21st and H Streets, N.W.

WASHINGTON. D.C.--George Washington University's Dimock Gallery together with the Art Department will present "Configurations," a selection of photographs by area artists from June 18 through July 31.

The invitational exhibition has been organized by the Dimock Gallery to explore patterning in photography as a current trend. Abstract, patterned or repetitive images and formal arrangements of objects will be the subjects of the majority of the photographs in the exhibit.

A number of artists were invited to be represented in the exhibition and submissions were accepted from area artists as well. Artists submitted up to three prints from which a selection was made. Approximately 60 photographic prints both black and white and color will constitute the show.

Among area artists whose works will be on exhibition are Franz Bader, William Christenberry, Frank Di Perna, Jerry Lake, Tim Kilby, Mark Power and Carol Samour.

The Dimock Gallery, off the lower lounge of Lisner Auditorium, 21st and H Sts., N.W., is open to the public from 10 a.m. to 5 p.m. Monday through Friday.

--MORE--

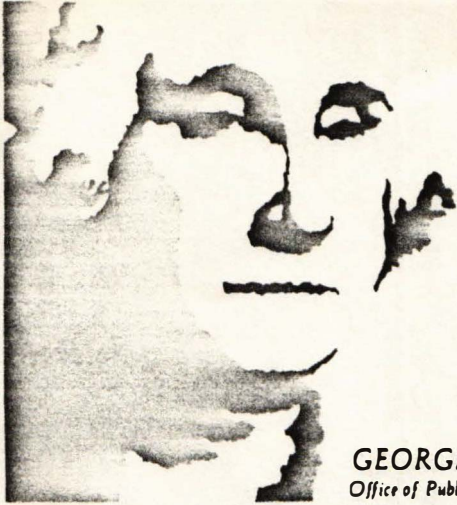

-- W. Jarvis Moody is chairman and president of American Security Corporation and American Security Bank, N.A. Formerly a loan and new business officer at Morgan Guaranty Trust Company in New York, he joined American Security Bank in 1964 as vice president. He has served three terms on the executive council of the American Bankers Association and is a past president of the D.C. Bankers Association. From 1974 to 1976 he was chairman of the Regional Advisory Board of the Comptroller of the Currency. He is a corporate director of Acacia Mutual Life Insurance Company, Peoples Drug Stores and District Realty Title Insurance Company.

-- J. McDonald Williams is managing partner of Trammel Crow Company, a real estate development and investment firm in Dallas. A partner in the Dallas law firm of Stalcup, Lipshy and Williams from 1968 to 1973, he has been associated with Trammel Crow since 1973. He received the J.D. degree from GW in 1966 with honors, graduating second in his class. He serves on the board of directors of Park Cities Bank and Trust Company, Dallas, and is a member of the Dallas Assembly, an association of community leaders in the Dallas metropolitan area.

At its May 21 meeting, the board of trustees also approved a resolution increasing the number of trustees nominated by the General Alumni Association from two to three for a three-year experimental period. The General Alumni Association will seek nominees from among those alumni submitted by the GW Student Association.

In other action, the board passed a resolution limiting to 25 percent non-tenure-accruing appointments in the regular active-status faculty in the colleges and schools of the university. No department may have fewer than 50 percent of its regular active-status faculty appointments tenured or tenure-accruing. The policy exempts the National Law Center and the Medical Center.

FOR IMMEDIATE RELEASE

NORFOLK RESIDENT IS HONORED AT GW COMMENCEMENT

WASHINGTON, D.C. -- Eileen P. Hart, daughter of Col. and Mrs. E.P. Hart, 1217 Porter Rd., Norfolk, recently placed first in the senior design award competition in civil engineering and was honored during commencement ceremonies at the George Washington University School of Engineering and Applied Science.

The competition encourages students to conceive, design and construct for testing an imaginative project in hardware or software. A review panel of lab instructors, fellow students and leading area consultants considers the projects based on originality, calculation accuracy, hardware draftsmanship, depth of theory and presentation. Hart's project was a design for a marina.

FOR IMMEDIATE RELEASE

GLOBAL SECURITY CONFERENCE AT GW
ADDRESSES "WHAT IFs OF WAR"

WASHINGTON, D.C. -- War will not stimulate the economy in the way it has in the past; it will decrease economic security.

That was the message Dr. Ralph K. White, George Washington University professor of psychology emeritus and author of Nobody Wanted War and the upcoming Causes of the Next Big War, gave recently to participants of "The Search for Global Security" conference cosponsored by GW's School of Public and International Affairs.

"A war would have a catastrophic effect on all our social desirables," said White, referring to economic and physical security, safety, social harmony and freedom.

White spoke with a panel of experts on the effect of arms build-up and/or war on personal well-being and quality of life. Other panelists recommended a nuclear freeze to stop nuclear testing and production, renewal of SALT negotiations and stopping aid to El Salvador.

It is a mistake, panelists agreed, to believe military superiority or more military weapons will increase security, that military spending has no effect on inflation or must be paid for out of people's mouths, a reference to recent federal budget cuts in food stamps and school lunch programs and concurrent increases in defense spending.

RE: GW ENERGY POLICY PROGRAM BRIEFING

A briefing will be held on George Washington University's graduate program in energy policy June 15, 5:30 to 6:30 p.m., in GW's Alumni House, 714 21st St., NW.

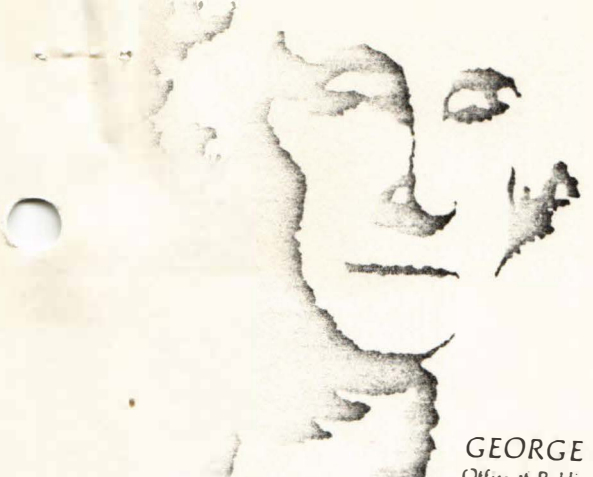

This multidisciplinary program addresses the technical, social, and political factors involved in decisions regarding the production and consumption of energy resources and leads to a master's degree in energy policy.

The program includes courses in economics, engineering science, mechanical engineering and political science. Courses are offered in sequence over a two-year period to meet the requirements of part-time degree candidates.

For information and reservations call Nancy Berns at 676-7061.

CAPTAIN GRACE MURRAY HOPPER, USNR, RECEIVES HONORARY DEGREE, SPEAKS TO GW GRADUATES

(L to R) George Washington University President Lloyd H. Elliott, Captain Grace Murray Hopper, USNR, and Dean of the GW School of Government and Business Administration Norma Maine Loeser before recent GW commencement exercises when Captain Hopper received the honorary degree of Doctor of Public Service and addressed graduates in government and business. Captain Hopper told them, "Never take the first no...Every plan you make must be reviewed in light of the future and in light of the cost of not carrying it out...You must be able to communicate, orally and in writing and in plain English."
